Earthquake in South Asia

UN Coordinates Massive Relief Effort in Pakistan

United Nations agencies are working around the clock, are sending supplies and teams of emergency workers to the survivors of an earthquake that left an estimated 30,000 dead and 40,000 injured in Pakistan. While 1 million people are in need of acute, life-saving assistance, 2.5 million people have been left homeless, and 4 million affected.

UN Focus

Stop Exclusion, Dare to Care

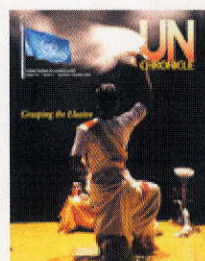

There are more than 450 million people worldwide with mental, neurological or behavioural problems, whose human rights are violated. Mental health issues will be the focus of WHO on Human Rights Day on **10 December 2005**.

Mini-series Explores the Inhumanity of Human Trafficking

Human Trafficking, a Lifetime Channel television mini-series that aired in the United States in October 2005, has put a human face to the countless women and children who are victims of the cruelest and most degrading treatment imaginable.
